ICT	PROVINCIA 2	03 months (extensible)	From October till December From February till April	*Only ICT students may apply *Language skills: B2 in English + A2 in Italian	The internship is intended to provide more information on applied cooperation techniques, VOIP technology, general network ICT's, disaster recovery techniques, Java and/or PHP programming, database management . The internship will include the following activities: providing support in the fields of test environments and test application analysis and development.
Agricultural Sciences	PTC 1	3 months	From September till December From February till April	*Only students enrolled on one of the following courses may apply: Agriculture, Natural Sciences, Biology, Environmental Engineering, Conceptionalising Architecture and Geology. * Language skills: B1 Italian language level; A2 English language level * ICT proficiency level: Working knowledge of basic software packages	Main tasks will include: EU and regional project planning; management and conservation of the protected area; environmental education, Park brand related activities and issues.
Law	PTC 2	3 months	From September till December From February till April	*Only students enrolled on one of the following courses may apply: Law, Economics, Political Sciences * Language skills: Italian language level B1; English language level: A2 *ICT proficiency level: Working knowledge of basic software packages	Main tasks will include: editing administrative measures, data filing, law research activities, accounting deeds, calls and open competitions editing.
Law	QCS 1	3 months	From September till December From February till April	*Only students enrolled on Communication, Political Sciences, Law, Economics courses may apply. Knowledge of European project planning is required. *Knowledge of European project planning is required. *Language skills: Level B1 in English + Level B1 in Italian *ICT skills: Working knowledge of basic software packages	The internship programme will focus on designing EU projects as well as on searching EU funding opportunities for cultural and environmental projects as well as economy-related projects. Support in the conception, development and organisation of events; information and administrative activities.

Economics	QCS 2	3 months	From September till December From February till April	*Only Economics and Marketing students may apply. *Language skills: Level B1 in Spanish + Level B1 in Italian *ICT skills: Working knowledge of basic software packages	The internship is aimed at an in-depth analysis on EU programmes and implementation of European projects (namely local development projects). Main tasks will include accounting activities concerning the development of economical and cultural exchange with Catalogna and Spain in general; acquiring knowledge of accounting software.
Communication Sciences	S'ALA 1	2-3 months	all year, based on project activities	*The trainee is expected to have a deep interest in communication and arts (mostly contemporary dance and acting), be skilled in writing, willing to interact with artists and be involved in event organization. *Language skills: Italian B2 minimum, any other language in a plus	The trainee will be engaged in a series of one-to-one interviews to explore the creative processes of young contemporary artists. The final output of the training programme is a collection of interviews, the content of which will be agreed upon with the trainee beforehand
Communication Sciences	S'ALA 2	2-3 months	all year, based on project activities	*The trainee is expected to have a deep interest in communication and arts (mostly contemporary dance and acting), be skilled in writing, willing to interact with artists and be involved in event organization. *Language skills: Italian B2 minimum, any other language in a plus	The trainee will be involved in the organization of an artist residency, which is one of the founding pillars of the Association's activities. The trainee may choose to support the communication activities of the residency programme by developing a communication line based on writing, photography, audiovisual materials, or any other forms as long as such forms do not interfere with the proper execution of the residency programme
Art History	SOPRINT 1	3 months	From September till December From February till April	* Students enrolled in Art history or similar courses can apply. * Language skills: B1 level in Italian; A2 level in English. * ICT skills: Working knowledge of basic software packages	The internship programme provides the support of the officials of Art history during all activities concerning the highlighting of the characteristics and importance of real estate and property of historical interest. The activities include inventory and cataloguing activities, bibliographical and archival research as well as study activities. Furthermore, the trainee may also participate in maintenance projects as well as restoration and research on the goods of the institute's field of activity. The trainee will also support education activities and scientific promotion events.
Architecture	SOPRINT 2	3 months	From September till December From February till April	* Students enrolled in Architecture or similar courses can apply. * Language skills: B1 level in Italian; A2 level in English. * ICT skills: Working knowledge of basic software packages	The internship provides the participation in activities concerning the identification of characteristics and importance of goods of architectural and scenic interest within the field of the institute's competence. The internship activities include the participation in assessing maintenance projects, consolidation, restoration, excavation and research as well as architectural design. Furthermore, the trainee will support museographic preparation, organisation and restoration of gardens as well as activities concerning architecture and the protection of landscapes. The trainee may also participate in the following activities: Inventory and cataloguing, understanding bibliographical as well as archival studies and research; the organisation of displays, exhibitions, conventions and seminars with educational and scientific purposes; the designing and realization of educational projects related to the field of competence and the respective teaching materials.
History	SOPRINT 3	3 months	From September till December From February till April	* Only UG/PG students enrolled on one of the following courses may apply: Arts (Literature and Philosophy), Conservation of Cultural Heritage Archaeology or similar. * Language skills: A2 level in Italian; A2 level in English. * ICT skills: Working knowledge of basic software packages * Knowledge of marketing is recommended.	The internship will be carried out at the diagnostics, research and conservation-restoration laboratory and will include working on archaeological materials derived from excavations, including also underwater excavations, incidental findings or on materials preserved in museums or private collections. The intern may assist the restoration interventions on stones, mural paintings and mosaics, metals, ceramic, glass and organic materials, in order to acquire methodology and terminology on conservation and preservation of the tangible cultural heritage.
Architecture firm	STUDIO ARCH 1	From 3 months till 6	From October till March From April till September	*Only students enrolled on a course of Architecture may apply *Language skills: B2 in English minimum, any other language in a plus *Knowledge of the following programmes is required: autocad, photoshop, 3ds max, sketch up	The trainees will cooperate in public calls, projects for the private (restoration, renovation, new construction). Detailed activities: surveys on the sites of the project and return the findings on CAD; drawings of plans, elevations and sections; 3d modelling and post-production; layout tables.
Architecture firm	STUDIO ARCH SPANEDDA	3 months	From September till July	*Applicants should be enrolled in a School of Architecture; *Language skills: B2/C1 level in Italian or English or Spanish or German *ICT skills: CAD applications: Autocad, Archicad (preferred). *Knowledge of the following programmes is also appreciated: Blender and Photoshop.	The aim of the internship is the development of practical knowledge in the field of architectural and urban design. The internship provides experience in the different steps of architectural design from inception to completion, as well communication of the design activity. We are currently engaged in: - Competition entries on housing and urban design; - Concept development of public buildings; - Working drawings; - Publications of the office's design activity in printed and electronic media. The intern's role will be to help the senior architects in the different phases, working on drawings, architectural visualisation, and real models.

Architecture firm	STUDIO CAU	02 months min. (extensible)	From September to August	<p>*Only students enrolled on a course of Architecture may apply</p> <p>*Language skills: A2 in Italian + B2 in English minimum, any other language in a plus</p> <p>*Knowledge of the following programmes is required: autocad, photoshop, 3ds max, sketch up</p>	The trainees will cooperate in public calls, projects for the private (restoration, renovation, new construction). Detailed activities: surveys on the sites of the project and return the findings on CAD; drawings of plans, elevations and sections; 3d modeling and post-production; layout tables. Creation of mix design with natural / local materials with simulations and performance tests; Energy performance analysis.
Architecture	TAMALACA	03 (or more) months)	From September till August	<p>*School / University origin: Communication and Media, Fine Arts, Architecture and Urban Planning</p> <p>*The candidate must demonstrate that has sensibility and expertise in the design, development and management of projects related to the field of unconventional communication, sensitive languages, towards inclusion and involvement oriented processes and projects. School / University origin: Communication and Media, Fine Arts, Architecture and Urban Planning</p> <p>*Creative thinking which requires a curious, open-minded, flexible, divergent, explorative, investigative approach; Critical thinking which requires questioning, clarifying, planning, analyzing, examining and testing information and ideas;</p> <p>*Reflective thinking which requires a metacognitive approach, seeking and considering feedback, reflecting on progress and processes, making links and connections with broader issues and the work of others.</p> <p>*Language skills: English: B1 level; Italian: B1 level.</p> <p>*ICT skills: Microsoft Office, Photoshop/ Corel draw, Illustrator, Indesign, After effects, Premiere.</p> <p>Resources include: computers; printers; web access; a range of software tools including applications to support the creation and manipulation of text, graphics and images; and input devices such as scanner, digital camera and tablet</p>	<p>Participation in all stages of Tamalacà activities, like observation and urban microtransformation, but also in order to create a collective and educational awareness moment and put in touch of know-how and insurgent creativity to push the different participants, through some playful-participatory actions, to redevelop/recovery and multiply/increase public spaces-prêt-à-porter and an opportunity to become involved in civic, social and cultural transformation, according to these 5 macro areas:</p> <ol style="list-style-type: none"> 1. Urban Regeneration: Creation, design and accompanying of policies, plans and urban regeneration projects in disadvantaged neighborhoods based on the promotion of active processes of inclusion and social innovation. 2. Play and participation: Creation of games, events and stories for the cities and territories playful learning; co-creation of inclusive decision-making paths and training with unconventional methods and tools, related with particularly relevant or conflicting urban issues and problems. 3. Tactical urbanism: design of scalable, short-term and low-cost, actions aimed at producing long-term transformations. 4. Inclusive design: Design of methods and tools for the involvement of human diversity in the design process, based on the of Design for All principles, with particular attention to public services and to sensitive areas, and at the neighborhood level (streets, parks and green space, schools, canteens, libraries, entertainment and game centers and rooms, museums, etc.). 5. Unconventional urban communication: creation, design and implementation of inclusive, innovative and viral urban communication campaigns. <p>Participation in training seminars and workshop and in Tamalacà research and laboratories, with the methodology that we used to complete our projects as a "team work", understood as a set of individuals with singular expertise, experience, creativity and sensitivity that are compared critically in order to find solutions that are actually transdisciplinary and consider the original problems in their real complexity. Regular assessment of progresses made by the tutor.</p>
Languages	TRAVMOT 1	4 months (extensible to a maximum of 9 months)	From September till August	<p>* Only students enrolled on one of the following UG/PG courses may apply: Communication, Economics/ Tourism Economics, Linguistic Mediation.</p> <p>* Language skills: A1/ A2 level in Italian; B2 level in English. Mother tongue in one of the following languages: Spanish, English, French, Hebrew.</p> <p>* ICT skills: excellent social media/web skills. Good knowledge of basic software packages (i.e. Office)</p> <p>* Knowledge of marketing is recommended.</p>	<p>Website translation: translate the website pages into either Spanish, French or Hebrew. Proofreading of all English written docs of the company Database/CRM update: check addresses, URL and tags of a database of current/prospected customers</p> <p>Communication: Copywriting and Article marketing on tourism in Sardinia, Corsica and/or other central Mediterranean areas.</p> <p>Web Marketing: update the social media pages of website with original, relevant contents</p>
Law	TRIB 1 -	3 months	From October till December	<p>*Only UG/PG/PhD Law students, who have passed the exam of criminal law may apply. Knowledge of Criminal law is compulsory, with particular reference to the involvement of underage victims or offenders.</p> <p>*Language skills: B1 level in Italian + English</p>	<p>The internship is intended to provide more information on juvenile criminal law. The trainee's duties will include the following activities:</p> <ul style="list-style-type: none"> -Research and analysis of the Italian juvenile criminal law, with particular attention to system comparative analysis; - technical support during the process of investigation of the child maturity assessment and the definition of protection measures. <p>The trainee will be assisted by a senior juvenile prosecutor in the analysis and evaluation of criminal and civil records, including an explanation of the dynamics of the proceeding; - Participation in conferences, events and courses of interest, together with the appointed juvenile prosecutor.</p>
Medicine and Surgery	UNI 1	03 months (extensible)	From September till December From February till May	<p>* Only PG Medicine and Surgery students may apply.</p> <p>* Language skills: B1 level in English + B1 level in Italian</p>	<p>Recognition of Infectious Diseases</p> <ul style="list-style-type: none"> -Knowledge of the main topics of clinical infectious diseases and their medical treatment -Participation in training seminars and clinical case challenges. <p>Main tasks: Inpatients</p> <ul style="list-style-type: none"> - Take part in clinical ward activities including medical history collection , physical examination, instrumental work-up and diagnostic process outpatients - Management HIV, HCV, HBV and co-infected patients with the supervision of an experienced Infectious Diseases specialists. <p>Participation as observed in all stages of Clinical Trials including informed consent, enrollment and follow up.</p> <p>Participation in research and diagnostic laboratory activities including serology and molecular biology</p> <ul style="list-style-type: none"> - Regular assessment of progresses made by the tutor
Educational Sciences	UNI 2	03 months (extensible)	From September till December From February till April	<p>* Only UG/PG Educational Sciences students may apply</p> <p>* Language skills: B1 in Italian</p> <p>* Computer skills: Working knowledge of basic software packages</p>	<p>Meeting with the managers of hosting facility. Initial observation and organization of the training activity. Intermediate meeting with the scientific tutor.</p> <p>Preparation of final report. Animation, sharing of the educational goals with the tutors appointed by the hosting institution. The trainee will be supported by an in-house tutor and a scientific advisor appointed by the University. The trainee will perform all the work activities agreed upon, according to the ordinary daily schedule set by the hosting institution.</p> <p>Know-how and skills expected to be acquired: Operational proficiency in contexts related to the education of children and adolescents.</p> <p>Development of powers of observation and socio-educational and cultural support capabilities in managing difficult subjects.</p>
Chemistry and Pharmacy	UNI 3	03 Months (extensible)	Sept. - Dec. /Feb. - Apr.	<p>Candidates could be PhD students in Chemistry, Physics or Materials Science, or could be students of Master Degree having a Bachelor Degree in Chemistry, or Materials Science</p> <p>Required language skills: English B2-B1.</p>	<p>Synthesis, structural and thermodynamic characterization of innovative nanosized materials for energy production and storage. (Evaluation of sorption properties of hydrogen storage systems; hydrogen production by water splitting process, preparation of electrode materials for Li-ion batteries).</p>

Medicine and Surgery	UNI 7	03 months (extendible)	From September till December From February till April	* Only PG in Medicine, Chemistry, Biological Sciences, Pharmacy and Biotechnology Sciences students may apply. * Language skills: A2 in Italian + B1 in English	Construction and characterization of sensor and biosensor for monitoring neurochemical molecules.
Medicine and Surgery	UNI 8	03 months (extendible)	From September till December From February till April	* Only PG in Medicine, Chemistry, Biological Sciences, Pharmacy or Biotechnology Sciences students may apply. * Language skills: A2 in Italian + B1 in English	Characterization of nanostructured materials for the construction of transducers for sensors and biosensors for the monitoring of biological and nutraceutical molecules
Chemistry and Pharmacy	UNI 9	3 months	From September till December From February till April	* Only students in Master's level degree in Pharmaceutical Studies, or Pharmaceutical Chemistry and Technologies may apply. * Basic theoretical and practical knowledge of Pharmaceutical and Toxicological Chemistry is required, with particular reference to instrumental analytical techniques, such as GC/FID, GC/MS, HPLC/ESI-MS, HPLC/MS/MS, CE/ESI-MS. * Theoretical and practical knowledge of the methodologies for the extraction of drugs and metabolites from various biological matrices is required. * Language skills: B1 in Italian + B2 in English	The internship is intended to provide more information about new analytical methodologies in the context of: - detection of residues of drugs of abuse and addictive and psychotropic substances, - chemical and enzymatic stability evaluation of prodrugs through the determination of residues of prodrugs, spacers e parent drugs.
Humanities and Social Sciences	UNI 11	03 months (1st semester) 04 months (2nd semester)	From September till December (3 months) From March till June (4 months)	* Social worker with a higher education degree (any European system); Vocational educator; Researcher * Language skills: Knowledge of Italian language level B1 * Computer skills: Applications for Windows operating systems (Office)	Collaboration in social projects; partnerships with civil society organizations; research-action projects based on the needs of communities and individuals; collaborations with Italian and foreign universities and research centers.
Chemistry and Pharmacy	UNI 12	3 months (extendible)	From September till December From February till April	* Applicants must possess one of the following titles: Master's level degree in Pharmaceutical Studies, or Pharmaceutical Chemistry and Technologies, or Chemistry. * Basic theoretical and practical knowledge of Inorganic and Bioinorganic Chemistry is required to perform the analysis of the interactions between metal molecules and molecules of biological interest. * Language skills: A2 in Italian + B1 in English	The training includes the synthesis and analysis (by means of different spectroscopic techniques) of organometallic compounds, consisting of metals and molecules of biological interest such as proteins, peptides and chelating agents, for the prevention and treatment of metal accumulation diseases. The trainee's duties will include the following activities: - Synthesis of metal complexes - Analysis of molecular mechanisms connected with the toxic and carcinogenic effects of metals. Characterization of metal complexes by means of spectroscopic techniques, such as NMR, EPR, and UV-Visible.
Chemistry and Pharmacy	UNI 16	03 Months (extendible)	From September till December From February till April	* Candidates could be PhD students in Chemistry or Pharmacy, or could be students of Master Degree having a Bachelor Degree in Chemistry, Medicinal Chemistry or Pharmacy * Language skills: B1-B2 in English * To apply please send also the Transcript of Records	Green Chemistry: low impact methodologies in synthetic organic chemistry Simulation in nuclear magnetic resonance spectroscopy
Medicine and Surgery	UNI 19	3 months (extendible)	From September till December From February till April	* Only PG Medicine and Surgery students may apply. * Language skills: B1 in Italian + B1 in English	Recognition of major psychiatric disorders according to DSM IV TR Knowledge of the main topics of clinical psychiatrics and medical treatment of psychiatric disorders Participation in psycho educational program. Main tasks: - Take part in clinical interviews as a listener, knowledge of the main psychometric test to assess symptoms in psychiatric outpatients - Evaluate psychiatric outpatients with the supervision of an experienced psychiatrist - Regular assessment made by the tutor.
Architecture and Urban Planning	UNI 20	6 months	From September to June	* Only Architecture and Urban Planning students may apply. * Language skills: B2 in Italian or English or Spanish * ICT skills: knowledge of digital graphic (i.e. Acrobat programmes and cad)	The trainee will cooperate in urban planning projects.

Languages	UNI 21 - CLA	3 months	From September till December From February till July	<ul style="list-style-type: none"> * Only PG students enrolled on a course of Foreign Languages and Literature may apply. * Language skills: B2 in Italian + C1 in English * ICT skills: Working knowledge of basic software packages (Office) 	The intern will support the CLA in the organization and management of educational measures and projects (eg. language courses for outgoing students tutoring for incoming students, translation activities etc.).
Languages	UNI 22 - RELINT	03 months (extensible)	From September till December From February till April	<ul style="list-style-type: none"> * The student must be enrolled on one of the following courses: Communication, Political Sciences, Translations or similar. * Language skills: B1 in Italian + B2 in English * ICT skills: good knowledge of basic software packages and web communication experience (social digital network is a plus) 	The intern will be involved in the management of international student mobility programmes with focus on communication, organization of incoming and outgoing mobility both for study and for placement, contacts with partner institutions. Additional activities will include institutional communication, promotion of international mobility opportunities offered by the University of Sassari, language support for information and translations, new partners search and development of new international cooperation projects.
Humanities and Social Sciences	UNI 24 - CDE	03 months (extensible)	From September till December From February till April	<ul style="list-style-type: none"> * Only Library, Archive and Information Science students may apply. * Language skills: B1 in English; B1 in Italian * ICT skills: Working knowledge of basic software packages (Office) 	The intern will cooperate in the office/library activities. Main tasks will include: <ul style="list-style-type: none"> - get a deeper knowledge of the Italian EDC network and the University Library System main rules; - knowledge of differences within the Italian bibliographic material (books, journal, online publications); - Application of international standard bibliographic description and cataloguing rules; - Cooperation in searching online institutional publication for the University archive; - Regular assessment made by the tutor
Biological Sciences, Natural Sciences or similar.	UNI 26	03 months (extensible)	From September till December From May till July	<ul style="list-style-type: none"> * The student must be enrolled in one of the following bachelor or master courses: Biological Sciences, Natural Sciences or similar. * Language skills: B2 in English, Italian, French or Spanish * The student should have basic theoretical-practical knowledge in the fields of: General Botany, Systematic Botany and/or Scientific Museology. We acknowledge also documented experience at Herbaria of other international institutions. 	Exsiccation of vascular plants samples collected on the field; determination of both fresh and dry material by using dicotomic keys; implementation of the Herbarium SS database, disinfestation and cleaning of Herbarium exsiccata. Attending internal seminars lectured by local or visiting professors.
History, Human Sciences and Education	UNI 28	02 months (extensible)	From May till July	<ul style="list-style-type: none"> * Only PG and PhD students in prehistory and/or proto-history, may apply. * Language skills: B1 in Italian 	Skill and competence to be acquired: knowledge about raw materials transformation (morphological, technological and functional analysis). Tasks: laboratorial activities, survey, archaeological excavation and experimental archeology activities, stages of prehistoric archeology and archaeozoology.
Archaeology	UNI 29	02 months (extensible)	From May till September	<ul style="list-style-type: none"> * Only Archaeology and Science of Cultural Heritage students (Ug, Pg, PhD) may apply * Language skills: level B1 in Italian 	Archaeological excavations conducted in prehistoric, punic and medieval sites.; laboratory activities; participation to conferences and seminars.
History	UNI 30	3 months	From April till June	<ul style="list-style-type: none"> * Post-graduates and Doctoral students. * Basic knowledge in protohistorical archaeology and fieldwork (archaeological excavation, field survey, graphic surveying systems of monuments and drawing of materials). * Language skills: B1 in English; Italian is a plus * ICT skills: Knowledge of the main softwares for data processing and management (word, excel, access, photoshop, etc...). 	Field surveys and archaeological excavation; graphic surveys of monuments and drawing of materials; support for the experimental archaeo-metallurgical activity, data base and digital processing of texts and drawings.
Administration in Veterinary Dept	UNI 31	03 months (extensible)	From September till July	<ul style="list-style-type: none"> * Language skills: B1 in Italian + English and French are a plus * ICT skills: good knowledge of basic software packages (i.e. Office) 	The program includes support for the administrative manager of the department of veterinary medicine for all activities related to teaching and research

Humanities Sciences	UNI 32	03 months (extensible)	From September till December From the middle of January till June	<ul style="list-style-type: none"> * Only students enrolled on a librarianship and archivist course may apply. * Language skills: B1 in Italian + B1 in English or French or Spanish * ICT skills: good knowledge of basic software packages (i.e. Office) and web communication experience 	The training is aimed at acquiring knowledge and expertise on the organisation and management of the library; planning and organising user services, knowledge of documents assets, digital services and law library-related front desk activities.
Chemistry and Pharmacy	UNI 33	3 Months (extensible)	Starting from September up until December, or from February up until May	<ul style="list-style-type: none"> * Students must be enrolled in one of the following master's level degree: Pharmaceutical Studies, or Pharmaceutical Chemistry and Technologies * Language skills: A2 in Italian + B1 in English * Theoretical and practical knowledge of: Organic, Heterocyclic and Medicinal Chemistry, and skill in main spectroscopic and analytical methods. 	Synthesis and structure-activity relationships of novel heterocyclic compounds with potential biological activity
Medicine and Surgery	UNI 34	3 months (Can be extended)	From September till December From February till June	<ul style="list-style-type: none"> * Only students enrolled in Biological Sciences or Pharmacy may apply * Language skills: A2 in Italian + B1 in English * ICT skills: good knowledge of basic software packages (i.e. Office) * Basic knowledge of laboratory activities 	The trainee will take part in studies focused on the antioxidant activity of nutraceuticals on neuronal and/or epithelial cells.
Veterinary	UNI 35	From 1 to 9 months	From September to August	<ul style="list-style-type: none"> * Students must be enrolled in their third or 4th year OR students graduated in Veterinary Medicine may apply * Language skills: A2 in Italian + B1 in English 	The trainee will cooperate in all activities daily carried out at the Veterinary Teaching Hospital. The traineeship will be equally divided among internal medicine, surgery, critical care, emergency medicine, organized in both day and night shift.
Medicine and Surgery	UNI 36	three months	From September till November	<ul style="list-style-type: none"> * Only Medicine students with the following knowledge may apply: basic knowledge of General Endocrinology * Language skills: B1 in Italian or in English 	Clinics: General Endocrinology; Neuroendocrine Tumours; Pituitary Diseases. Case discussion in MDT (Multi Disciplinary Team)
Medicine and Surgery	UNI 37	three months	From October till December From February till April From March till May	<ul style="list-style-type: none"> * Only Medicine students may apply * Language skills: B1 in Italian or in English or French or Spanish * Basic knowledge of type 1 diabetes and celiac disease 	Diagnosis and follow up of pediatric and adolescent patients with type 1 diabetes and celiac disease.
Agricultural Sciences	UNI 38 - NRD	3 months (extensible)	From September till December From February till June	<ul style="list-style-type: none"> * Only PG Agricultural Science, Economics may apply. * Language proficiency: B2 language level in English; * ICT skills: Windows OS applications (Microsoft Office package) 	The internship activities will include: cooperation in the framework of the project FLOWERED, project monitoring activities, database and data-entry, editing technical economics reports.
Agricultural Sciences	UNI 39 - NRD	3 months (extensible)	From September till December From February till June	<ul style="list-style-type: none"> * Only PHD students with a Master Degree in Agricultural Sciences or Environmental Science may apply * Language skills: B2 level in Italian or in English or Spanish * ICT skills: Windows OS applications (Microsoft Office package) * Basic knowledge of soil science and botany are required 	The internship will provide a deeper knowledge on Mediterranean agro forestry systems with reference to the pasture productivity and Carbon soil dynamic.

Chemistry and Pharmacy	UNI 41	Min. 2, Max. 4 months	All year (to be agreed with the Pharmacy owner)	<ul style="list-style-type: none"> * PG students in Pharmacy or UG students attending the last year of a Pharmacy course may apply * Language skills: B2/C1 in Italian 	Lo studente The trainee will be involved in the practical activities usually carried out in a Pharmacy. For more information: http://dcf.uniss.it/ws.php?mod=papers&artid=2
Medicine and Surgery	UNI 42	3 months	<ul style="list-style-type: none"> From October till December From February till April From March till May 	<ul style="list-style-type: none"> * Only Medicine students may apply * Language skills: B2 in Italian or English or French or Spanish * Basic knowledge of rehabilitation in patients affect by disease of joint like hip, knee, shouder, spine. 	Clinical evaluation and follow up of patients with hip, knee, spine and shoulder disease.
Communication Sciences	UNI 44	3 months (extensible)	<ul style="list-style-type: none"> From September till December (3months + 1 ex. month) From January till April (3months + 1 ex. month) From May till July (3months) 	<ul style="list-style-type: none"> * The student must be enrolled on one of the following courses: Communication Science, Journalism * Language skills: B1 level in Italian (spoken and written), English is a plus * ICT skills: good knowledge of basic software packages (i.e. Office) and web communication experience 	Main tasks will include: Working on the daily press review; collaboration in editing press releases regarding the university activities; collaboration in the organization of press conferences; social media editing, social media management, web editing.
Architecture and Urban Planning	UNI 45	2 months (extensible till 6 months)	From September till June	<ul style="list-style-type: none"> * Students must be enrolled in one of the following courses: any level in Architecture and Urban Planning; Master programme in Architecture * Language skills: level B2 in Italian or English or Spanish or Portugese * The student must show a special interest in and/or competences for urban space planning with focus on social housing and welfare spcaces as well as innovative learning environments and scool buildings * ICT skills: Digital graphic programmes; Windows (PC) and/or OS (Mac), Microsoft Office package, Autodesk AutoCAD, Adobe Photoshop, Adobe Illustrator, Adobe Indesign * ICT skills: Minimum knowledge of: Autodesk 3ds Max, Rhinoceros and management of websites 	The traineeship consists of the participation in laboratory activities for projects, research and scientific promotion. And/Or in planning, organising and preparation of graphics for the website and other machinery of Ecurbanlab.
Humanities and Social Sciences	UNI 46 - Orientation/Job Placement	2 months (extensible till 6 months)	From September till July	<ul style="list-style-type: none"> * Students enrolled on a humanities UG/Pg Course may apply * Language skills: level B2 in Italian + B2 in English * Good communicative and relational qualities required * ICT skills: good knowledge of basic software packages (i.e. Office) and web communication experience 	The trainee will collaborate in carrying out the activities of the orientation office as: <ul style="list-style-type: none"> - desk activities for Italian and foreign students; - organisation of cultural events; - support activities in the management of administrative practices.
Architecture and Urban Planning	UNI 47	3 months (extensible)	<ul style="list-style-type: none"> From September till December From February till May 	<ul style="list-style-type: none"> * Students enrolled in Earth Sciences or Geology (preferably Master degree) may apply * Language skills: level B2 in English * Competences in Sedimentology, Quaternary Geology and absolute age dating * ICT skills: good knowledge of basic software packages (i.e. Office) and web communication experience 	Absolute age dating with luminescence on quartz (OSL) and feldspar (postIRIR)
Chemistry and Pharmacy	UNI 49	3 months (extensible)	<ul style="list-style-type: none"> From September till December From February till May 	<ul style="list-style-type: none"> * Only PhD students in Chemistry, or could be students of Master Degree having a Bachelor Degree in Chemistry may apply. * Language proficiency: B2-B1 level in English; 	Development, validation and application of chromatographic, potentiometric and spectrophotometric methods for the qualitative and quantitative analysis of different analytes in real samples.
Economics	UNI 50	3 months (extensible)	From September till June	<ul style="list-style-type: none"> * The candidate should be a student in Economics, Politics or Communication * Language proficiency: B1 level in English * ICT skills: Microsoft Office or similar softwares; use of Internet browsers * Interests: Social developement, Social engagement, Communication and dissemination 	The candidate will be involved in all the main activities of the area. Specially in monitoring Public Engagement initiatives of UNISS, in research and analysis of international fundings and networking opportunities and in dissemination reports drafting.
