

Lifesciences Consultants is looking for talented Business Analysts for its Headquarter in Italy.

LSC is a global life sciences-focused commercial strategy consultancy with a 20-year track record of helping Large and Small Cap Biopharma, MedTech, and Diagnostics clients to successfully deliver to market transformative healthcare products and patient-centric solutions in the US, Europe, and Emerging Markets.

We provide a merit-based, fast-track career with accelerated learning opportunities and exposure to a variety of project types, addressing a wide range of key business challenges impacting biopharmaceutical and medtech companies. In this role, you will be a critical member of a project team and have direct guidance and mentorship from LSC senior leadership. You will also have direct interactions with global life science leaders at our client organizations.

Business Analyst responsibilities typically include performing analyses, generating insights, and supporting development of strategies/recommendations and deliverables on life science-focused projects. This role requires strong, initiative and analytical expertise. Our onboarding and training program will help you quickly develop knowledge of the healthcare and life science market, and accelerate your career.

Profile

We are looking for people with a passion for the life sciences and an interest in strategy consulting, looking to combine science and business, with a strong attitude to problem-solving, entrepreneurship and strategic thinking.

Required Skills:

- Strong analytical skills;
- Structured thinking and problem-solving;
- Initiative and results orientation;
- Excellent verbal and written communication skills;
- Teamwork;
- Fluency in English; additional languages are a plus;
- Proficiency in Microsoft Office, mainly PPT and Excel.

Expertise:

- Excellent academic background, high GPA or full marks (starting from 3.7/105 GPA); preferably in Biotechnology, Biology, Pre-Medicine, Business Administration, Economics, Mathematics, Statistics, Engineering, Public Health, or similar;
- International study and/or internship experience.

Compensation:

Competitive compensation based on candidate's experience.
