In order to enter Italy, citizens of non-EU countries residing abroad must register on the portal [University](https://www.uniss.it/university) and apply for an entry visa at the Italian Embassy or Consulate responsible for the area.

The renunciation of the scholarship entails the renunciation of enrolment in the PhD Course in the case in which the activation of the consequent position without a scholarship, not provided for in the present call for applications, determines a failure to comply with the ratio (verified in the PhD Course of reference) of one position without a scholarship for every three positions with a scholarship, pursuant to art. 9 paragraph 1 of the Ministerial Decree of 14 December 2021, no. 226.

In the event of the activation of positions without a scholarship following the renunciation of the scholarship, as per the previous paragraph, once the 1 to 3 ratio has been verified, these will be activated giving priority to the candidate with the highest score of the same PhD Course.

In order to improve the recognition and visibility of their scientific output, doctoral students are required to activate an [Orcid](https://orcid.org/) ID when enrolling in the Doctoral Programme.

ART. 11 – Attendance

All applicants are required to attend and participate in the PhD Programme activities as full-time students, as specified in the Programme requirements approved by the PhD Board.

At the end of each academic year, students will be required to file a detailed report of the research work carried out and their results. The PhD Board will retain the reports, evaluate the regular attendance and productivity of each applicant and recommend the Rector to approve or reject the continuation of the ongoing Programme.

Recipients of scholarships funded by the PR Sardegna FSE+ 2021-2027 and the Vinci 2025 Call for Applications must complete a period of research abroad lasting between over the three-year period, ranging from a minimum of six months to the maximum limit set out in Article 9, paragraph 3, of the Decree of the Ministry of University and Research No. 226 of 14 December 2021, under penalty of having to return the scholarship.

The PhD degree will be awarded at the end of the course following the successful evaluation of a research

thesis by a specially appointed Committee.

ART. 12 – Scholarship rejection or withdrawal

Those who have not regularised their enrolment by the aforementioned deadlines shall be deemed to have withdrawn and those who have made false declarations, in addition to the criminal liability they will incur, shall be declared dismissed.

If there are no suitable candidates within one or more curricula, or in the event of renouncement or forfeiture of the rightful candidates, the Course Committee may propose to the Rector the redistribution of the places available among the activated curricula.

ART. 13 – Scholarships

The scholarships, the number of which is indicated for each PhD programme in Annex 1, are awarded after a comparative assessment of merit and according to the order defined in the respective merit rankings, either single or divided by curricula, where the programme has provided for them, as formulated by the selection committees.

The annual amount of the scholarship, which is determined in accordance with art. 1 of D.M. 23/02/2022, no. 247, amounts to € 16.243,00 gross of employee benefit expenses borne by the recipient.

The scholarships reserved to applicants having graduated in a foreign university, which are not assigned to any applicant, may be reassigned pursuant to the Regulations governing the University PhD Programmes.

Scholarships have a duration of one year and are renewed on condition that the PhD student has completed the programme of activities foreseen for the previous year, verified according to the procedures established by the PhD Course and in compliance with any additional requirements foreseen by the funders, without prejudice to the obligation to disburse the scholarship following the successful completion of the verification.

The benefit of a scholarship for the attendance of a PhD Course is compatible with the possession of a gross annual personal income not exceeding €16,243.00 in the calendar year in which the scholarship is received.

The PhD scholarship will start on 1 November 2025, unless there are any reassignments or delays, and can't be combined with any other scholarships, except for those given by national or foreign institutions to help PhD students do research abroad, or with research grants.

The scholarship amount is increased by 50% for periods spent abroad, subject to the availability of the relevant financial coverage. The scholarship increase is incompatible with Erasmus, Ulisse or any other contributions provided under international mobility programmes.

The request for the above-mentioned increase, addressed to the Rector, is subject to the authorisation for a period abroad issued by the Course Coordinator, within the limit of six months, by the Course Council

for longer periods.

The scholarship payment is made on a deferred monthly basis.

In the event of renouncement of the scholarship by the doctoral student or revocation following a negative evaluation or failure to comply with reporting obligations or in any other case for which the revocation of the scholarship is attributable to the actions of the doctoral student (except as already provided for in Articles 4, 5 and 11 of this Notice), the University reserves the right to require the doctoral student to return the scholarship.

Those who have already benefited, even partially, from a scholarship for a Doctorate course may not benefit from it a second time.

For foreign nationals, the payment of the scholarship is conditional on the presentation to the competent offices of the University of the Italian Tax Code issued by the Italian Consulate with territorial jurisdiction or by the Revenue Office (Agenzia delle Entrate), in the case of a candidate already present on Italian soil. Therefore, payment of the study grant cannot proceed, under any circumstances, until the Italian Tax Code has been duly presented.
