

## INTERIOR ARCHITECT – INTERIOR PROJECT DESIGNER

### Company Description

ACPV ARCHITECTS Antonio Citterio Patricia Viel is an international collective with the aim of nurturing shared well-being through unique, high-profile architectural solutions worldwide. Founded in 2000 by Antonio Citterio and Patricia Viel, the studio is currently enhanced by the creativity of more than 200 professionals and the leadership of 14 partners. From urban planning to residential and mixed-use developments, from corporate campuses to public buildings and hotels, each ACPV ARCHITECTS project embodies a new vision where nature and the noblest human aspirations can find new centrality.

### Position

We are looking for an Interior Project Designer who is a strong communicator, self-motivated, and eager to work in an established international design practice with a solid reputation. The ideal candidate is an architect with 2–5 years of experience. The role offers professional development primarily through BIM modelling within the project team, with responsibility for specific parts of the project.

### The role will involve a range of activities including:

- Design interior spaces across a variety of building types, responding effectively to client requirements
- Understand the design intent and key concepts underlying each project
- Develop early-stage project proposals, including ideas, layouts, material references, and mood boards
- Produce images, presentations, and drawings that clearly represent the project, from overall vision to detailed scale
- Prepare technical drawings, layout plans, and all required documentation across the different project phases
- Collaborate on spatial design, material selection, and definition of finishes and characteristics
- Develop projects using **BIM modelling**, producing models, drawings, and visual content primarily in **Revit**
- Organize work according to project priorities and development requirements
- Contribute to the project team and provide support as needed
- Collaborate closely with members of the internal design and planning teams

- Design custom furniture and bespoke interior elements
- Enhance interior spaces through coherent stylistic choices aligned with the client's identity

### **Requirements**

- Degree in Architecture (required)
- Minimum 2 years of experience in a similar role
- **Advanced proficiency in BIM methodology and BIM software, with mandatory advanced knowledge of Revit**
- Proven ability to work collaboratively within a BIM-based and multidisciplinary environment
- Ability to work effectively in an informal and dynamic workplace
- Self-motivated, proactive, and able to work independently
- Strong multitasking skills and the ability to perform well under pressure
- Positive, flexible, supportive, and enthusiastic attitude
- Good command of spoken and written English
