Subject: Training course: Enhancing 4 IN's in digital teaching practices in Dubrovnik, Croatia, 29 – 31 March 2023

To: Michaela Menřikov <michaela.mensikova@mendelu.cz>

Dear partner,

it is our honour to invite you to take part in the training course & seminar **Enhancing 4 IN's in digital teaching practices: Internationalisation, innovation, interaction and inclusion**, to be held at Inter-University Centre Dubrovnik, Croatia, **29 – 31 March 2023**.

Digital skills have become an irreplaceable asset working in higher education for both teachers and students. Enhancing 4 IN's is presenting results from the WITEA-ID, the transnational project that draws on existing and emerging digital and international mobility competencies and skills needs in higher education. This training course is intended for teachers who would actively take part in the programme by learning to use a unique platform of multifunctional space with appropriate and useful tools for digital teaching. The training for the use of digital platforms and e-Toolkits would enhance participants' skills in the use of online technologies for teaching and establishing new international cooperations.

For this training course, *Erasmus + Staff mobility for training* can be used. Partners outside the consortium are invited to:

1. **Come to Dubrovnik in person and take part in the workshop**
2. **Present their work (when compatible) in this seminar – online or in person**

Detailed and updated programmes with practical information and accommodation options can be found on the [IUC website](#).

I hope you and your other colleagues will be able to join us in Dubrovnik!

Greetings from Brno,

Katerina

S pozdravem,
Best regards,

Ing. Katerina Mlejnkova
