Dear partners,

We hope this email finds you well.

The good weather in Setúbal has inspired us to organize the **13th Edition of IPS International Week**, with the theme **“Bring the Future to Academia”**.

It's our pleasure to invite you to travel to Portugal, between the **26th** and the **30th June 2023**, where you will have the opportunity to discuss:

- > 'Academy of the Future' in its various aspects
- > Highlight and promote the Skills of the Future
- > Promote and expand International R&D Networks
- > Engaging Society in Science

This International Week will be open to the participation of teachers, researchers, and non-academic staff from International Relations Offices, R&D support services and staff involved in the support of Entrepreneurship and Technology Transfer activities.

The **registration link and additional information on the event structure will be sent by the end of February**, but feel free to contact us if you need any additional information (cimob@ips.pt).

If you think this information is interesting for your colleagues, please forward this email.

Best regards,

Ana Dias
