# Soft Skills For Engineers

New course for international students to promote skills required by the engineering profession beyond the technical knowledge obtained in regular courses, which will help the students prepare for their future work.

10 ECTS

Develop your capabilities in the SKE course

Verbal and written communication, problem-solving, leadership, teamwork, critical thinking, creativity and innovation, empathy, strategic planning, time management, and attention to detail, among others, will be reinforced.

Location: ETSIAMN (Building 3P)

## Teaching Staff

Professors and faculty staff visit the UPV through academic and research exchange programs

## Methodology

10 sessions in which a different skill will be put into practice each week. To do this, the workshop manager is asked to prepare a 2-3 hour session working on the ability in question.

## Evaluation

Mandatory attendance and participation. The lecturer may require the student to take a short test or make a demonstration at the end of the session
